# Retail Ginger

## Retail Ginger, Contract Packed with Buyer's or Supplier's label

Ginger products can be used to add a distinctly asian twist to sauces and marinades, or to bring gentle warmth and spice to your home baking. Here are some examples of how the retail market can use our ginger products:

Young Ginger in Syrup are hand cut balls of young ginger. Their warm flavour makes them ideal for home baking and desserts or chopped for ice cream, yoghurts, and savoury sauces.

Our ginger jam is ideal on toast, crumpets, and croissants, and valuable in a range of jar sizes.

Crystallised Ginger is small diced pieces of crystallised ginger suitable for snacking and adding to cereals, biscuits, cakes, and all creative home baking.

Spicy shreds of ginger are available in 100% pure juice. This Shredded Ginger is great for stir-frys, curries, marinades and even mixed salads. Shredded organic ginger is also fantastic with baked and steamed fish.

Ginger Puree is a signature ingredient in sauces and marinades.

**All ginger is also available Fairtrade and/or Organic.**
